Subject: LETTER OF APPRECIATION

I would like to express my sincere appreciation to McMullen & Pitz Construction for completing the installation of a one hundred fifty five foot long free span bridge within Mirror Lake State Park. The installation was not an easy task as the location provided limited working space, yet extra effort was taken to keep the site disturbance to a minimum allowing much of the surrounding vegetation to remain unchanged while reducing soil erosion to little or nothing. Erich Pitz and the staff at McMullen & Pitz acted in a professional manner, demonstrating innovation and determination throughout the duration of the project and completed the project on schedule.

The completion of this project has provided those that visit Mirror Lake State Park visual access to the scenic Mirror Lake Gorge, trail access from the parks campgrounds to the Ishnala Restaurant and offers cross country skiers and hikers a challenging 2.5 mile pristine trail. This project is truly a unique addition to Mirror Lake State Park and the entire Wisconsin State Park System and I would like to congratulate those at McMullen & Pitz Construction on a job well done.

Sincerely,

Paul Zajackowski
Property Supervisor
Mirror Lake Work Unit
