Re: City of Port Washington  
2010 Marina Improvements

Dear Eric-

I wanted to express my sincere appreciation for the work performed by McMullen and Pitz, and in particular your project manager, Ted Jennajohn, on Port Washington's \$2.7 million conversion from fixed piers to floating docks. I can honestly say I've never been more impressed with a contractor.

The level of service and the spirit of cooperation went well beyond expectations and delivered a finished product that was on time, under budget, and of terrific quality.

For future marina projects, I would certainly look forward to working with McMullen and Pitz and Ted Jennajohn again.

Very Truly Yours,

Robert J. Vanden Noven, P.E.  
City Engineer/Director of Public Works
